#### ENTER THE WORLD OF SERVERS

PRIMERGY TX industry standard tower servers: efficient, rock solid, record-breaking performance. PRIMERGY TX servers benefit from over 20 years pioneering work in the field of Green IT. That is how TX servers reach industry – leading performance per watt ratios, lowering the environmental impact and running costs. TX servers can easily be managed locally or remotely via the PRIMERGY ServerView Suite, saving IT admin costs. That's efficient performance. Our made-to-measure service packages take care of your system every step of the way. Rest assured, PRIMERGY TX servers are put through 5000 boot cycles - that's rock solid performance. PRIMERGY TX servers are flexible systems capable of using up to two processors and up to 20 hard disks. Tower to rack mounting kits are available for most TX systems to help you move to a consolidated rack infrastructure. TX servers have a tradition of setting record-breaking performance levels. So, whether you use them as tower or rack servers, for file, print or application purposes, you will benefit from record-breaking performance. PRIMERGY TX: a tower of strength.

#### PRIMERGY TX100 S1

The PRIMERGY TX100 S1 is your entry to the world of servers. It is the perfect system for SMEs looking to centralize their IT infrastructure, and offers a great price-performance ratio. Moreover, the TX100 S1 is very silent and energy efficient making it an excellent choice for any office environment. The 85% efficient power supply unit minimizes costs, as well as the environmental impact. The use of data security features such as ECC memory and RAID 0/1 ensures around-the-clock reliability. Finally, the TX100 S1 offers a choice of Intel<sup>®</sup> processors suited to the needs of SMEs. Step into the world of PRIMERGY servers.

### **FEATURES AND BENEFITS**

#### MAIN FEATURES

- Great price-performance ratio
- High energy efficiency with 85% efficiency power supply unit (PSU), EPA 5.0 compliant
- Low noise levels
- Server reliability thanks to the use of components such as Intel 3200 server chipset, ECC memory and RAID 0/1
- Flexibility

#### BENEFITS

- With a choice of processors up to Intel Xeon<sup>®</sup>, and budget options to choose from, the PRIMERGY TX100 S1 offers an excellent priceperformance ratio
- Benefit from Fujitsu's pioneering experience in Green IT save money and minimize environmental impact
- Effective hardware design air flow ensures a silent system for an efficient working environment.
- Keep business processes going 24x7
- Available with two different base units with either a maximum of either 2 or 4 hard disks.

#### FUJITSU PLATFORM SOLUTIONS

In addition to Fujitsu PRIMERGY TX100 S1, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

#### **Dynamic Infrastructures**

With the Fujitsu Dynamic Infrastructures approach, Fujitsu offers a full portfolio of IT products, solutions and services, ranging from clients to datacenter solutions, Managed Infrastructure and Infrastructure as-a-Service. How much you benefit from Fujitsu technologies and services depends on the level of cooperation you choose. This takes IT flexibility and efficiency to the next level.
